**Note 2 – Significant Accounting Policies**

For a complete discussion of the Company's accounting policies, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

**Basis of Presentation** –The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with the instructions to Form 10-Q. As permitted by the rules and regulations of the United States Securities and Exchange Commission ("SEC"), the unaudited condensed consolidated financial statements contain certain condensed financial information and exclude certain footnote disclosures normally included in audited consolidated financial statements prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP"). The accompanying condensed consolidated financial statements are unaudited and are prepared in accordance with U.S. GAAP. In the opinion of the Company's management, the accompanying unaudited condensed consolidated financial statements contain all adjustments, including normal recurring accruals, necessary to fairly present the accompanying unaudited condensed consolidated financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated/combined financial statements included in the Company's annual report on Form 10-K for the year ended December 31, 2008. The December 31, 2008 Unaudited Condensed Consolidated Statement of Financial Condition data was derived from audited consolidated financial statements, but does not include all disclosures required by U.S. GAAP. Operating results for the interim period are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2009.

The Company's policy is to consolidate all subsidiaries in which it has a controlling financial interest, as well as variable interest entities where the Company is deemed to be the primary beneficiary. All intercompany balances and transactions with the Company's subsidiaries have been eliminated upon consolidation.

The Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2009 includes the assets and liabilities for ETC and EAM. The Unaudited Condensed Consolidated Statements of Operations include the consolidated results of ETC as of May 1, 2009 and EAM as of April 1, 2009. Revenue for these businesses are primarily fee-based and are recognized as earned. See Note 4 for further disclosure.

Assets Segregated for Bank Regulatory Requirements on the Unaudited Condensed Consolidated Statements of Financial Condition represent cash and cash equivalents that have been segregated for bank regulatory purposes.

**Presentation of Noncontrolling Interest** –In January 2009, the Company adopted Statement of Financial Accounting Standards ("SFAS") No. 160, *Noncontrolling Interests in Consolidated Financial Statements – an amendment of ARB No. 51* ("SFAS 160"). SFAS 160 requires reporting entities to present noncontrolling (minority) interests as equity (as opposed to as a liability or mezzanine equity) and provides guidance on the accounting for transactions between an entity and noncontrolling interests. The adoption of SFAS 160 resulted in the presentation of Noncontrolling Interest as a component of Total Equity on the Unaudited Condensed Consolidated Statements of Financial Condition and below Net Income on the Unaudited Condensed Consolidated Statements of Operations. Prior periods have been reclassified to conform to the current presentation. In addition, the adoption of SFAS 160 resulted in an allocation of the components of Total Comprehensive Income between controlling interests and noncontrolling interests for the three and six months ended June 30, 2009 and 2008, respectively.

The Company has evaluated all subsequent events through the filing of this Form 10-Q.

**Note 3 – Recent Accounting Pronouncements**

**FSP FAS 141(R)-1** - In April 2009, the Financial Accounting Standards Board ("FASB") issued FASB Staff Position ("FSP") FAS 141(R)-1, "*Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies*" ("FSP FAS 141(R)-1"). FSP FAS 141(R)-1 amends and clarifies FASB Statement No. 141(R), *Business Combinations* ("SFAS 141(R)"), to address application issues raised by preparers, auditors and members of the legal profession on initial recognition and measurement, subsequent measurement and accounting and disclosure of assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of this FSP did not have a material effect on the Company's financial condition, results of operations or cash flows.

*FSP FAS 107-1 and APB 28-1* – In March 2009, the FASB issued FSP FAS 107-1 and APB 28-1, “*Interim Disclosures about Fair Value of Financial Instruments*” (“FSP FAS 107-1 and APB 28-1”). FSP FAS 107-1 and APB 28-1 amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about the fair value of financial instruments in interim financial statements, as well as in annual financial statements. This FSP also would amend APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in all interim financial statements. FSP FAS 107-1 and APB 28-1 is effective for interim periods ending after June 15, 2009. The adoption of this FSP did not have a material effect on the Company’s financial condition, results of operations or cash flows.

*FSP FAS 115-2 and FAS 124-2* – In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, “*Recognition and Presentation of Other-Than-Temporary Impairments*.” This FSP amends the other-than-temporary impairment guidance for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. The FSP is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of this FSP did not have a material effect on the Company’s financial condition, results of operations or cash flows.

*FSP FAS 157-4* – In April 2009, the FASB issued FSP FAS 157-4, “*Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*” (“FSP FAS 157-4”). FSP FAS 157-4 provides additional guidance for estimating fair value in accordance with SFAS No. 157, *Fair Value Measurements* (“SFAS 157”), when the volume and level of activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. This FSP is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The adoption of this FSP did not have a material effect on the Company’s financial condition, results of operations or cash flows.

*SFAS 165* – In May 2009, the FASB issued SFAS No. 165, *Subsequent Events* (“SFAS 165”). SFAS 165 establishes principles and requirements for subsequent events. In particular, this Statement sets forth the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009, and shall be applied prospectively. The adoption of this FSP did not have a material effect on the Company’s financial condition, results of operations or cash flows. See Note 15 for subsequent events.

*SFAS 166* – In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment of SFAS No. 140* (“SFAS 166”). SFAS 166 amends SFAS No. 140 to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor’s continuing involvement in transferred financial assets. This Statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions of this Statement shall be applied to transfers that occur on or after the effective date. The Company is currently assessing the impact of the adoption of SFAS 166 on the Company’s financial condition, results of operations and cash flows.

*SFAS 167* – In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* (“SFAS 167”). SFAS 167 amends certain requirements of FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, to improve financial reporting by enterprises involved with variable interest entities and to provide more relevant and reliable information to users of financial statements. This Statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The Company is currently assessing the impact of the adoption of SFAS 167 on the Company’s financial condition, results of operations and cash flows.

**Note 4 – Business Changes and Developments**

*Acquisition of SFS* – On May 1, 2009, the Company announced the formation of ETC in conjunction with the consummation of its acquisition of a controlling interest of 86% in Bank of America’s Special Fiduciary Services Division (“SFS”) for \$8,196. The

remaining 14% is owned by the management and directors of ETC. SFS's business will be conducted through ETC, which will focus on providing specialized investment management, independent fiduciary and trustee services to employee benefit plans of large corporations, consistent with the services provided by the historical SFS business. In addition, ETC provides personal trustee, executor and custody services for EWM. SFS was acquired to aid in the launch of ETC.

The purchase price of the acquisition has been allocated to the assets acquired and liabilities assumed using the fair values as determined by management as of the acquisition date. The computation of goodwill was based on its fair value at May 1, 2009 as presented below.

<b>Purchase Price:</b>	
Cash Paid	\$ 8,196
Fair Value of Contingent Consideration	<u>1,896</u>
Fair Value of Consideration Transferred	10,092
Fair Value of Non-controlling Interest	<u>1,643</u>
Total Fair Value of Purchase Price	11,735
<b>Fair Value of Assets Acquired and Liabilities Assumed:</b>	
Accounts Receivable	2,450
Intangible Assets	<u>2,300</u>
Accounts Payable	(1,025)
Deferred Revenue	<u>(499)</u>
Identifiable Net Assets	<u>3,226</u>
Goodwill Resulting from Business Combination	<u>\$ 8,509</u>

The allocation of the purchase price to the fair value of the net assets acquired is preliminary and subject to modification. In conjunction with the acquisition, the Company recognized accounts receivable with a gross value of \$2,450, which approximates fair value, all of which are expected to be collected. The goodwill reflects the replacement cost of an assembled workforce associated with personal reputations, relationships and business specific knowledge, as well as the value of expected synergies and premiums paid by the Company and the noncontrolling interest holders.

The Company has a commitment to pay earn-out consideration equal to \$1,000 for each of 2009, 2010 and 2011, contingent upon the annualized gross revenues of ETC exceeding \$16,750, \$17,100 and \$18,200, respectively. At the end of the earn-out period, in the event that less than \$3,000 is paid or payable and total annualized gross revenues for 2009 through 2011 exceed \$49,500, the Company will be required to pay an amount equal to \$3,000, less amounts already payable and paid pursuant the earn-out. The holders of the noncontrolling interest of ETC will make a payment to the Company for their pro-rata portion of any future earn-out.

In connection with the SFS acquisition, the Company recorded an intangible asset of \$2,300 relating to client relationships. Management views customer relationships as the primary intangible asset of SFS, as the customer relationships are stable and recurring. The intangible asset was valued at the date of acquisition at its fair value, as determined by management and will be amortized over an estimated useful life of 7 years. The Company recognized \$55 of amortization expense related to this intangible asset for the three months ended June 30, 2009.

Goodwill and intangible assets recognized as a result of the acquisition of SFS are included in the Investment Management Segment.

The seller did not maintain U.S. GAAP basis financial statements for SFS. The Company is unable to independently substantiate the significant assumptions that must be made in order to compile U.S. GAAP basis financial statements for prior periods from what was provided by the seller. As a result, the Company believes it is impracticable to disclose pro forma financial information. Total revenue and operating income of ETC included in the Company's consolidated results since the date of acquisition was \$2,053 and \$179, respectively, for the three months ended June 30, 2009.

ETC, which is limited to fiduciary activities, is regulated by the Office of the Comptroller of the Currency (“OCC”) and is a member bank of the Federal Reserve System. The Company, Evercore LP and ETC are subject to written agreements with the OCC that, among other things, require the Company and Evercore LP to (1) maintain at least \$5,000 in Tier 1 capital in ETC (or such other amount as the OCC may require), (2) maintain liquid assets in ETC in an amount at least equal to the greater of \$3,500 or ninety (90) days coverage of ETC’s operating expenses, and (3) provide at least \$10,000 of certain collateral held in a segregated account at a third party depository institution. The \$10,000 is included in Assets Segregated for Bank Regulatory Requirements on the Unaudited Condensed Consolidated Statements of Financial Condition. The Company was in compliance with the aforementioned agreements as of June 30, 2009.

**Acquisition of Controlling Interest in EAM** – On April 1, 2009, the Company invested an additional \$2,000 in EAM, increasing its ownership to 51%. As a result, the Company consolidated its investment in EAM effective April 1, 2009. As part of this agreement, EAM has released the Company from all non-compete arrangements. The transaction resulted in goodwill and intangible assets of \$6,266 and \$1,300, respectively, recognized in the Investment Management Segment. The intangible asset will be amortized over 10 years.

**Goodwill and Intangible Assets**

Goodwill associated with the Company’s acquisitions is as follows:

**Note 5 – Special Charges and Acquisition and Transition Costs**

In conjunction with the U.S. Private Equity restructuring, the Company recorded noncash Special Charges of \$16,138 in the second quarter of 2009 related to the cancellation of 417 employee restricted stock units (“RSUs”) and 250 Evercore LP partnership units (“LP Units”).

ECP capital raising was deferred in the first half of 2008. As a result, the Company consolidated its private equity operations in New York, resulting in Special Charges of \$1,310 and \$2,437 for the three and six months ended June 30, 2008, respectively. These charges were in connection with the write-off of certain capitalized costs associated with ECP capital raising, employee severance, accelerated share-based vesting and other costs related to the closing of the Los Angeles office.

The Company has recognized \$422 and \$712 for the three and six months ended June 30, 2009, respectively, as Acquisition and Transition Costs incurred in connection with the consummation of the Company’s acquisition of SFS and formation of ETC. This expense reflects the change in accounting for deal-related costs required by SFAS 141(R), which was effective January 1, 2009.

**Note 6 – Related Parties**

Investment Management Revenue includes income from related parties earned from the Company’s Private Equity Funds for portfolio company fees, management fees, expense reimbursements and realized and unrealized gains and losses of private equity fund investments. Total Investment Management revenues from related parties amounted to (\$1,812) and (\$339) for the three and six months ended June 30, 2009 and 2008, respectively, and \$3,393 and \$5,678 for the three and six months ended June 30, 2008, respectively.

The Company did not earn any advisory fees from clients that have Senior Managing Directors as a member of their Board of Directors for the three and six months ended June 30, 2009.

Total	<u>\$ 96,253</u>	<u>\$ 98,710</u>	<u>\$ 98,979</u>	<u>\$100,023</u>

Since the Company has the ability and intent to hold available-for-sale securities until a recovery of fair value to an amount approximating its amortized cost, which may be maturity, it does not consider such unrealized loss positions to be other-than-temporarily impaired at June 30, 2009.

**Corporate Bonds**

The Company invests in corporate bonds, which are classified as available-for-sale securities within Marketable Securities on the Unaudited Condensed Consolidated Statement of Financial Condition. The Company had \$0 and \$163 realized gains for the three and six months ended June 30, 2009, respectively.

**Equity Securities**

During the first quarter of 2009, the Company assessed its treasury and investment activities including the equity securities managed by EAM and, as a result, the Company transferred these securities from trading to available-for-sale. Accordingly, these securities are stated at quoted market value with unrealized gains and losses, which have occurred since the date of transfer, included in Accumulated Other Comprehensive Income and realized gains and losses included in earnings. Prior to the transfer, the Company incurred \$758 of realized and unrealized losses during 2009. Subsequent to the transfer the Company incurred \$91 and \$187 of realized gains for the three and six months ended June 30, 2009.

**Note 8 – Financial Instruments Owned and Pledged as Collateral at Fair Value, Securities Purchased Under Agreements to Resell and Securities Sold Under Agreements to Repurchase**

The Company, through PCB, enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market, which the Company reflects as Financial Instruments Owned and Pledged as Collateral at Fair Value on the Unaudited Condensed Consolidated Statements of Financial Condition, or by entering into reverse repurchase agreements with unrelated third parties. The Company accounts for these repurchase and reverse repurchase agreements as collateralized financing transactions. The Company records a liability on its Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. The Company records as assets on its Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at

Fair Value (where the Company has acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where the Company has acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with unrelated third parties).

These Mexican government securities have an estimated average time to maturity of approximately 3.0 years and are pledged as collateral against repurchase agreements which are collateralized financing agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB, are generally in overnight maturities and permit the counterparty to pledge the securities.

As of June 30, 2009 and December 31, 2008, a summary of the Company's assets, liabilities and collateral received or pledged related to these transactions are as follows:

**Note 9 – Investments**

The Company's investments reported in the Unaudited Condensed Consolidated Statements of Financial Condition consist of investments in Private Equity Funds, the Company's equity interest in EAM, Pan and HighView Investment Group ("HighView") and Cost Basis Investments.

**Investments in Private Equity Funds**

The Company's investments in private equity funds include investments in ECP II, Discovery Americas I, L.P. (the "Discovery Fund") and EMCP II. Portfolio holdings of the Private Equity Funds are carried at fair value. Accordingly, the Company reflects its pro rata share of the unrealized gains and losses occurring from changes in fair value. Additionally, the Company reflects its pro rata share of realized gains, losses and carried interest associated with any investment realizations.

A summary of the Company's investment in the Private Equity Funds as of June 30, 2009 and December, 31, 2008 is as follows:

	June 30, 2009	December 31, 2008
ECP II	\$ 7,671	\$ 12,529
Discovery Fund	2,303	1,803
EMCP II	1,952	1,507
Total Private Equity Funds	<u>\$ 11,926</u>	<u>\$ 15,839</u>

Net realized and unrealized gains (losses) on Private Equity Fund investments, including incentive fees, were (\$3,814) and (\$4,491) for the three and six months ended June 30, 2009, respectively, and \$1,371 and \$1,678 for the three and six months ended June 30, 2008, respectively. The Company may be obligated to repay certain carried interest previously recorded in the event that the investments perform poorly on both a realized and unrealized basis. As of June 30, 2009, the Company had approximately \$523 of previously recognized carried interest that may be subject to repayment.

**Other Equity Investments**

The Company's investments in Private Equity Funds, which consist of general partner interests, and the Company's equity interest in Pan are relatively high-risk and illiquid assets. Realized and unrealized gains and losses on equity method investments are included on the Unaudited Condensed Consolidated Statements of Operations in Investment Management Revenue.

A summary of the Company's other equity investments as of June 30, 2009 and December 31, 2008 is as follows:

**EAM**

During the second quarter of 2009, the Company invested an additional \$2,000 in EAM, increasing its ownership to 51%. See Note 4. As a result, the Company consolidated its investment in EAM effective April 1, 2009. The investment resulted in losses of \$72 and \$275 for the three and six months ended June 30, 2008, respectively.

**Pan**

In the third quarter of 2008, the Company made an equity method investment of \$4,158 in Pan and maintains a 50% interest at June 30, 2009. This investment resulted in losses of \$185 and \$389 for the three and six months ended June 30, 2009.

**HighView**

At the end of the first quarter of 2009, HighView's management decided against proceeding with its business. As a result of this event, the Company recognized a loss of \$920 in this investment for the six months ended June 30, 2009, representing the Company's share of deferred costs expensed by HighView for these periods.

**Cost Basis Investments**

During the first quarter of 2009, the Company invested \$1,250 in CITIC Securities International Partners, LTD ("CSIP") in exchange for a 5% noncontrolling interest in the entity. CSIP and the Company focus on providing leading independent investment banking merger and acquisition ("M&A") advisory and investment management service effecting transactions between China and other international markets. This investment is accounted for on the cost basis.

**Note 10 – Fair Value Measurements**

The Company adopted SFAS 157 as of January 1, 2008, which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. The adoption did not have a material impact on the results of the Company. SFAS 157 establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

Level I – Quoted prices are available in active markets for identical investments as of the reporting date. The type of investments included in Level I include listed equities and listed derivatives. As required by SFAS 157, the Company does not

FINANCIAL STATEMENTS – (Continued)

(dollars and share amounts in thousands, except per share amounts, unless otherwise noted)

adjust the quoted price for these investments, even in situations where Evercore holds a large position and a sale could reasonably impact the quoted price. Level I investments include Financial Instruments Owned and Pledged as Collateral at Fair Value and the Company's investments in equity securities of \$103,035 and \$5,472, respectively, as of June 30, 2009.

Level II – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value is determined through the use of models or other valuation methodologies. Level II investments include the Company's investments in corporate bonds of \$98,710 as of June 30, 2009. The estimated fair values of the corporate bonds are based on quoted market prices provided by external pricing services.

Level III – Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation. The Company did not have any Level III investments as of June 30, 2009.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

**Note 11 – Issuance of Notes Payable and Warrants**

On August 21, 2008, the Company entered into a Purchase Agreement with Mizuho Corporate Bank, Ltd. ("Mizuho") pursuant to which Mizuho purchased from the Company Senior Notes having a principal amount of \$120,000 due 2020 with a 5.20% coupon (the "Senior Notes") and warrants to purchase 5,455 shares of Evercore Class A common stock at \$22.00 per share (the "Warrants") expiring in 2020. Based on their relative fair value at issuance, plus accretion, the Senior Notes and Warrants were reflected in Notes Payable and Additional Paid-In-Capital on the Unaudited Condensed Consolidated Statement of Financial Condition. The Senior Notes have an effective yield of 7.94%.

The holder of the Senior Notes may require the Company to purchase, for cash, all or any portion of the holder's Senior Notes upon a change of control of the Company for a price equal to the aggregate accreted amount of such Senior Notes, (the "Accreted Amount"), plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at the option of the Company at any time within 90 days following the date on which Mizuho notifies the Company that it is terminating their new strategic alliance agreement ("Strategic Alliance Agreement"). Senior Notes held by any other holder than Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at the option of the Company at any time beginning on the third anniversary of closing. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until August 16, 2012 or, if the Strategic Alliance Agreement is terminated, the later of one year following such termination and the third anniversary of the closing of the purchase of the Senior Notes and Warrants. The Company has a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased in the open market or acquired by exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

**Note 12 – Evercore Partners Inc. Stockholders' Equity**

During the first six months of 2009, the Company purchased 179 Class A common shares from employees at market values ranging from \$11.16 to \$20.34 per share for the net settlement of stock-based compensation awards. The Company also purchased 56 shares pursuant to the Company's share repurchase program at market values ranging from \$10.32 to \$12.38 per share. The result of these repurchases was an increase in Treasury Stock of \$3,023 on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as June 30, 2009.

(dollars and share amounts in thousands, except per share amounts, unless otherwise noted)

During the first six months of 2009, 38 LP Units were gifted by employees to various charities and converted into Class A common shares, resulting in an increase to Additional Paid-In-Capital of \$96 on the Company's Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2009.

During the three and six months ended June 30, 2009, the Company declared and paid dividends of \$0.12 and \$0.24 per share, totaling \$1,681 and \$3,321, respectively. The Company's Board of Directors declared on July 27, 2009, a quarterly cash dividend of \$0.12 per share, to the holders of Class A Common Stock as of August 28, 2009, which will be paid on September 11, 2009.

**Note 13 – Noncontrolling Interest**

Noncontrolling Interest recorded in the unaudited condensed consolidated financial statements of the Company relates to a 55% interest in Evercore LP, a 30% interest in PCB, a 30% interest in EWM, a 49% interest in EAM and a 14% interest in ETC, not owned by the Company. The Noncontrolling Interest for Evercore LP and EWM have rights, in certain circumstances, to convert into Class A common shares. At June 30, 2009, the Noncontrolling Interest in ETC includes a mandatory redemption provision after year five; accordingly, \$2,704 has been reflected in Other Long-term Liabilities on the Unaudited Condensed Consolidated Statement of Financial Condition as of June 30, 2009. During the third quarter of 2009, the mandatory redemption provisions were removed.

In conjunction with the appointment of the President and Chief Executive Officer of the Company on May 22, 2009, 1,391 LP Units were issued and sold for a purchase price of \$15,000, representing the fair value at the date of purchase. The units are restricted from sale or transfer for five years.

Changes in Noncontrolling Interest for the six months ended June 30, 2009 and 2008 were as follows:

- (a) During the three and six months ended June 30, 2009 and 2008, the LP Units (which represent the right to receive shares of Class A common stock upon exchange) were antidilutive and consequently the effect of their exchange into shares of Class A common stock has been excluded from the calculation of diluted net income (loss) per share attributable to Evercore Partners Inc. common shareholders. The units that would have been included in the computation of diluted net income (loss) per share attributable to Evercore Partners Inc. common shareholders if the effect would have been dilutive were 15,387 and 15,132 for the three and six months ended June 30, 2009, respectively, and 15,205 and 15,209 for the three and six months ended June 30, 2008, respectively.
- (b) For the three and six months ended June 30, 2009, the Warrants were antidilutive and consequently the additional shares have been excluded from the calculation of diluted net income per share attributable to Evercore Partners Inc. common shareholders. The additional shares that would have been included in the computation of diluted net income per share attributable to Evercore

Partners Inc. common shareholders if the effect would have been dilutive were 5,455 for the three and six months ended June 30, 2009 reduced for the impact of the Treasury Stock Method, if applicable. SFAS No. 128, *Earnings per Share*, requires that the dilutive effect of warrants with multiple conversion alternatives be determined based on the alternative which is most advantageous to the holder of the exchangeable Senior Notes and Warrants. This will generally occur when the market value of the Company's stock exceeds the exercise price of the Warrants, requiring dilution to be determined using the Treasury Stock Method. In certain limited circumstances the dilutive effect of conversion would be calculated using the If-Converted Method.

- (c) During the three and six months ended June 30, 2009, the additional shares of the Company's common stock assumed to be issued pursuant to non-vested restricted stock, RSUs and certain LP Units as calculated using the Treasury Stock Method were antidilutive and consequently the additional shares have been excluded from the calculation of diluted net loss per share attributable to Evercore Partners Inc. common shareholders. The additional shares that would have been included in the computation of diluted net loss per share attributable to Evercore Partners Inc. common shareholders if the effect would have been dilutive were 1,074 and 732 for the three and six months ended June 30, 2009. Antidilution is the result of the Company having a loss for the three and six months ended June 30, 2009.

The shares of Class B common stock have no right to receive dividends or a distribution on liquidation or winding up of Evercore Partners Inc. The shares of Class B common stock do not share in the earnings of Evercore Partners Inc. and no earnings are allocable to such class. Accordingly, basic and diluted net income (loss) per share of Class B common stock have not been presented.

**Note 15 – Stock-Based Compensation**

Subsequent to the IPO, the Company granted new and existing employees RSUs and restricted stock. Certain of these awards vest upon the same terms as the LP Units and the RSUs issued at the time of the IPO ("Event-based Awards") and certain of these awards vest from one to five years ("Service-based Awards").

No Event-based Awards vested during the six months ended June 30, 2009. Management has concluded that at the current time it is not probable that the conditions relating to the vesting of unvested Event-based Awards will be achieved or satisfied. The company had 10 and 21 forfeited Service-based and Event-based Awards during the six months ended June 30, 2009. Compensation expense related to Service-based Awards, excluding RSUs granted in conjunction with the appointment of the President and Chief Executive Officer and the below forfeitures was \$5,585 and \$12,212 for the three and six months ended June 30, 2009, respectively, and \$7,024 and \$13,166 for the three and six months ended June 30, 2008, respectively. As discussed below, in July 2009 the Company modified the vesting terms for event-based LP units to include service based terms. Accordingly, the Company will expense the fair value of the awards, prospectively, over the service period.

In conjunction with the Company's decision to delay capital raising for Evercore Capital Partners, and other ongoing strategic cost management initiatives, the Company recorded a pre-tax charge of \$16,138 in the second quarter of 2009 related to the cancellation of 667 unvested RSUs and LP units. The Company also incurred a \$1,227 charge for the accelerated vesting of 131 RSUs in connection with U.S. private equity restructuring.

During the six months ended June 30, 2009, pursuant to the Evercore Partners Inc. 2006 Incentive Plan, excluding RSUs granted in conjunction with the appointment of the President and Chief Executive Officer, the Company granted employees 2,083 RSUs that are Service-based Awards. These awards had grant date fair values of \$11.73 to \$19.80 per share.

During the second quarter of 2009, in accordance with and pursuant to the terms of the Company's 2006 Stock Incentive Plan, 900 RSUs were granted in conjunction with the appointment of the President and Chief Executive Officer of the Company. The vesting of these RSUs is contingent on the achievement of certain market conditions subject to continuous employment of the President and Chief Executive Officer of the Company through the fifth anniversary of his appointment (or if prior to the fifth anniversary, employment is terminated by the Company without cause or by the President and Chief Executive Officer for good reason or due to his death or disability). The market conditions are segregated into five groups of 180 RSUs each with share price thresholds which are required to exceed a certain level for 20 consecutive trading days. The Company utilized an outside service provider to determine the fair value of each award and will expense each award ratably over the implied service period represented by the five year service requirement. As the awards contain market-based conditions, the entire expense will be recognized if the award does not vest for

any reason other than the service conditions. Compensation expense related to this award was \$207 for the three and six months ended June 30, 2009.

In July 2009, the Company amended the terms of certain equity awards as follows:

- Dividend equivalents, in the form of unvested RSU awards, will be paid prospectively for all unvested RSU grants awarded in conjunction with annual bonuses. The dividend equivalents will have the same vesting and delivery terms as the underlying RSU award.
- Retirement eligibility terms have been established for all future equity awards granted in conjunction with annual awards. The revised retirement eligibility guidelines require:
  - At least five years of continuous service;
  - At least 55 years of age;
  - Combined years of service and age equal to 70; and
  - At least one year of advance notice of retirement and full compliance with post retirement employment restrictive covenants for one year post retirement
- In conjunction with the Second Amended and Restated Limited Partnership Agreement of Evercore LP, the event-based vesting terms for unvested partnership units that were triggered if two of the three Evercore founders did not continue to be employed by or serve as a director of Evercore Partners Inc. or its affiliates or if the founders and certain associated entities ceased to beneficially own a specified percentage of their Evercore equity were deleted and replaced with more traditional time-based vesting provisions. The unvested partnership units will now vest ratably on December 31, 2011, 2012 and 2013 so long as the equity holder remains employed with Evercore Partners Inc., the Partnership or their affiliates on such dates.

**Note 16 – Commitments and Contingencies**

For a complete discussion of the Company's commitments and contingencies, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2008.

**Operating Leases** – The Company leases office space under non-cancelable lease agreements, which expire on various dates through 2023. The Company reflects lease expense over the lease terms on a straight-line basis. Occupancy lease agreements, in addition to base rentals, generally are subject to escalation provisions based on certain costs incurred by the landlord. Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations includes occupancy rental expense relating to operating leases of \$2,382 and \$4,623 for the three and six months ended June 30, 2009, respectively, and \$2,287 and \$4,787 for the three and six months ended June 30, 2008, respectively.

During the first quarter of 2009, the Company agreed to lease 5,632 square feet of office space at One Post Office Square, Boston, Massachusetts, for the expansion of EAM, expiring in August 2010 with annual base rental payments of approximately \$200. The Company also agreed to lease 3,916 square feet of office space at 1099 New York Avenue, N.W., Washington D.C., expiring in February 2014 with annual base rental payments of approximately \$200 and 12,833 square feet of office space at 601 S. Figueroa Street, Los Angeles, California, expiring in April 2014 with annual base rental payments of approximately \$350 in connection with the acquisition of SFS.

The Company has entered into various operating leases for the use of certain office equipment. Rental expense for office equipment totaled \$118 and \$224 for the three and six months ended June 30, 2009, respectively, and \$51 and \$189 for the three and six months ended June 30, 2008, respectively. Rental expense for office equipment is included in Occupancy and Equipment Rental on the Unaudited Condensed Consolidated Statements of Operations.

**Other Commitments** – As of June 30, 2009, the Company has unfunded commitments for capital contributions of \$16,391 to the Private Equity Funds. These commitments will be funded as required through the end of each Private Equity Fund's investment period, subject to certain conditions. Such commitments are satisfied in cash and are generally required to be made as investment opportunities are consummated by the Private Equity Funds.

(dollars and share amounts in thousands, except per share amounts, unless otherwise noted)

During the first quarter of 2009 the Company committed an additional \$1,250 to CSIP that is callable on demand by CSIP's Board of Directors.

During the second quarter of 2009, the Company invested an additional \$2,000 in EAM, increasing its ownership interest to 51%. In addition, the Company has a remaining commitment of \$4,315 which would be paid upon request by EAM's Board of Managers to fund operational needs. If the full amount were called, the Company's ownership percentage would increase to 63%.

Due to the significant dislocations experienced across the alternative investment markets, the Company has decided to suspend capital raising for Evercore Capital Partners and focus on the management and realization of the existing portfolio. HighView has also decided against proceeding with its business. None of the capital HighView raised was invested, and HighView has agreed to release the Company from its capital commitment of \$150,000.

See Note 4 for the Company's commitment related to earn-out consideration for ETC.

**Legal**

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses, and, in the past, the Company and its affiliates have been named as a defendant in civil litigation matters involving present or former clients or competitors. In addition, Mexican, United Kingdom and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

The Company contests liability and/or the amount of damages as appropriate. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict with certainty the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that the outcome of any pending matters will not have a material adverse effect on the consolidated financial condition of the Company, although the outcome of such matters could be material to the Company's operating results and cash flows for a particular future period, depending on, among other things, the level of the Company's revenues or income for such period. Legal reserves are established in accordance with SFAS No. 5, *Accounting for Contingencies*. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.

**Note 17 – Regulatory Authorities**

EGL is a U.S. registered broker-dealer and is subject to the net capital requirements of Rule 15c3-1 under the Exchange Act. Rule 15c3-1 requires the maintenance of net capital, as defined, which shall be the greater of \$5 or 6 2/3% of aggregate indebtedness, as defined. EGL's regulatory net capital as of June 30, 2009 and December 31, 2008 was \$60,053 and \$32,905, respectively, which exceeded the minimum net capital requirement by \$59,289 and \$32,662, respectively. Certain other non-U.S. subsidiaries are subject to various securities and banking regulations and capital adequacy requirements promulgated by the regulatory and exchange authorities of the countries in which they operate. These subsidiaries have consistently operated in excess of their local capital adequacy requirements.

ETC, which is limited to fiduciary activities, is regulated by the OCC and is a member bank of the Federal Reserve System. The Company, Evercore LP and ETC are subject to written agreements with the OCC that, among other things, require the Company and Evercore LP to (1) maintain at least \$5,000 in Tier 1 capital in ETC (or such other amount as the OCC may require), (2) maintain liquid assets in ETC in an amount at least equal to the greater of \$3,500 or ninety (90) days coverage of ETC's operating expenses,

and (3) provide at least \$10,000 of certain collateral held in a segregated account at a third party depository institution. The \$10,000 is included in Assets Segregated for Bank Regulatory Requirements on the Unaudited Condensed Consolidated Statements of Financial Condition. The Company was in compliance with the aforementioned agreements as of June 30, 2009.

**Note 18 – Income Taxes**

The Company's Provision for Income Taxes was \$1,373 and \$2,431 for the three and six months ended June 30, 2009, respectively, and \$2,461 and \$2,167 for the three and six months ended June 30, 2008, respectively. The effective tax rate was (10.6)% and (21.2)% for the three and six months ended June 30, 2009, respectively, and 31.3% and 41.2% for the three and six months ended June 30, 2008, respectively. The effective tax rate for 2009 reflects the effects of a non-deductible charge associated with the cancellation of certain equity awards as well as the discrete impact of the result of the realized tax deduction, for certain share-based compensation awards, being lower than the deferred tax benefit recognized at the time of expensing such awards due to a decrease in the Company's share price.

As of June 30, 2009, there were \$1,674 of unrecognized tax benefits that, if recognized, would affect the effective tax rate. Related to the unrecognized tax benefits, the Company accrued interest of \$28 during the second quarter of 2009 and \$63 for the six months ended June 30, 2009, and had recognized a liability for penalties of \$510 and interest of \$703.

**Note 19 – Segment Operating Results**

**Business Segments** – The Company's business results are categorized into the following two segments: Advisory and Investment Management. Advisory includes providing advice on mergers, acquisitions, divestitures, leveraged buyouts, restructurings, and similar corporate finance matters. Investment Management includes advising third-party investors in the Private Equity, Institutional Asset Management and Wealth Management sectors.

The Company's segment information for the three and six months ended June 30, 2009 and 2008 is prepared using the following methodology:

- Revenue and expenses directly associated with each segment are included in determining operating income.
- Expenses not directly associated with specific segments are allocated based on the most relevant measures applicable, including headcount and other factors.
- Segment assets are based on those directly associated with each segment, or for certain assets shared across segments, these assets are allocated based on the most relevant measures applicable, including headcount and other factors.
- Investment gains and losses, interest income and interest expense are allocated between the segments based on the segment in which the underlying asset or liability is held.

Each segment's Operating Expenses include: a) employee compensation and benefits expenses that are incurred directly in support of the segment and b) non-compensation expenses, which include expenses for premises and occupancy, professional fees, travel and entertainment, communications and information services, equipment and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, legal, facilities management and senior management activities. Other Expenses include a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement in 2008, amortization of intangibles as well as Special Charges and Acquisition and Transition Costs.

The Company evaluates segment results based on net revenue and operating income, both including and excluding the impact of the Other Expenses.

**Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations**

*The following discussion should be read in conjunction with Evercore Partners Inc.’s unaudited condensed consolidated financial statements and the related notes included elsewhere in this Form 10-Q.*

**Forward-Looking Statements**

This report contains or incorporates by reference forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act, which reflect our current views with respect to, among other things, our operations and financial performance. In some cases, you can identify these forward-looking statements by the use of words such as “outlook”, “believes”, “expects”, “potential”, “continues”, “may”, “should”, “seeks”, “approximately”, “predicts”, “intends”, “plans”, “estimates”, “anticipates” or the negative version of these words or other comparable words. Such forward-looking statements are subject to various risks and uncertainties.

Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in these statements. All statements other than statements of historical fact are forward-looking statements and are based on various underlying assumptions and expectations and are subject to known and unknown risks, uncertainties and assumptions, and may include projections of our future financial performance based on our growth strategies and anticipated trends in Evercore’s business. We believe these factors include, but are not limited to, those described under “Risk Factors” discussed in the Annual Report on Form 10-K for the year ended December 31, 2008 and subsequent quarterly reports on Form 10-Q. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included or incorporated by reference in this report. We undertake no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future developments or otherwise.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for our management to predict all risks and uncertainties, nor can management assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

**Key Financial Measures**

*Revenue*

Total revenues reflect revenues from our Advisory and Investment Management business segments that includes transaction-related client reimbursements plus other revenue. Net revenues reflect total revenues less interest expense related to repurchase agreements, Senior Notes and other borrowings.

*Advisory.* Our Advisory business earns fees from our clients for providing advice on mergers, acquisitions, restructurings, leveraged buy-outs, recapitalizations and other corporate transactions. The amount and timing of the fees paid vary by the type of engagement. In general, fees are paid at the time we sign an engagement letter, during the course of the engagement or when an engagement is completed. The majority of our advisory revenue comes from fees that are dependent on the successful completion of a transaction. A transaction can fail to be completed for many reasons, including failure to agree upon final terms with the counterparty, to secure necessary board or shareholder approvals, to secure necessary financing or to achieve necessary regulatory approvals.

Revenue trends in our Advisory business generally are correlated to the volume of M&A activity and restructurings. However, deviations from this trend can occur in any given year or quarter for a number of reasons. For example, changes in our market share or the ability of our clients to close certain large transactions can cause our revenue results to diverge from the level of overall M&A or restructuring activity.

We operate in a highly-competitive environment where there are no long-term contracted sources of revenue and each revenue-generating engagement is separately awarded and negotiated. Our list of clients, including our list of clients with whom there is a currently active revenue-generating engagement, changes continually. We gain new clients through our business development initiatives, through recruiting additional senior investment banking professionals who bring with them client relationships and through referrals from executives, directors, attorneys and other parties with whom we have relationships. We may also lose clients as a result of the sale or merger of a client, a change in a client’s senior management, competition from other investment banks and other causes.

*Investment Management.* Our Investment Management business includes operations related to the management of the private equity funds, Institutional Asset Management, Wealth Management and other business activities. Revenue sources primarily include management fees, fees earned from portfolio companies, fiduciary and consulting fees, performance fees (including carried interest) and gains (or losses) on our investments.

## [Table of Contents](#)

Management fees from private equity operations are generally a percentage of committed capital or invested capital at rates agreed with the investment funds we manage or with the individual client. Management fees from EAM, EWM and PCB generally represent a percentage of assets under management. Fiduciary and consulting fees are a function of the size and complexity of each engagement and are individually negotiated. Performance fees are earned when specified benchmarks are exceeded. In certain circumstances, such fees are subject to “claw-back” provisions. Portfolio Company fees include monitoring, director and transaction fees associated with services provided to the portfolio companies of the private equity funds we manage. Gains and losses include both realized and unrealized gains and losses on principal investments, including those arising from our equity interest in investment partnerships.

*Transaction-Related Client Reimbursements.* In both our Advisory and Investment Management segments we make various transaction-related expenditures, such as travel and professional fees, on behalf of our clients. Pursuant to the engagement letters with our clients or the contracts with the limited partners in the private equity funds we manage, these expenditures may be reimbursable. We define these expenses as transaction-related expenses and record such expenditures as incurred and record revenue when it is determined that clients have an obligation to reimburse us for such transaction-related expenses. Client expense reimbursements are recorded as revenue on the Unaudited Condensed Consolidated Statements of Operations on the later of the date an engagement letter is executed or the date we pay or accrue the expense.

*Net Interest Revenue.* Net interest revenue is derived from investing customer funds in financing transactions by PCB. These transactions are principally repurchases and resales of Mexican government securities. Revenue and expenses associated with these transactions are recognized over the term of the repurchase or resale transaction. Net interest revenue also includes interest expense associated with the Senior Notes, as well as income earned on marketable securities and cash deposited with financial institutions.

### *Operating Expenses*

*Employee Compensation and Benefits Expense.* We include all payments for services rendered by our employees, including our Senior Managing Directors, in employee compensation and benefits expense.

We maintain compensation programs, including base salary, cash and equity bonus awards and benefits programs and manages compensation to estimates of competitive levels based on market conditions. Our level of compensation for the current period reflects our plan to maintain competitive compensation levels to retain key personnel during market down cycles, as well as the impact of Senior Managing Directors hired after the IPO on 2009 compensation expense, including grants of equity awards valued at current and prior stock prices.

Increasing the number of high-caliber Senior Managing Directors is critical to our growth efforts. Typically newly hired Senior Managing Directors don’t start until the middle of a calendar year, and these hires generally do not begin to generate significant revenue in the year they are hired.

Our annual compensation program includes stock-based compensation awards as a component of the annual bonus awards for certain employees, including certain Senior Managing Directors. These equity awards are subject to annual vesting requirements over a four-year period beginning at the date of grant, which generally occurs in the first quarter of each year; accordingly, the expense is being amortized over the vesting period.

*Non-Compensation Expenses.* The balance of our operating expenses includes costs for occupancy and equipment rental, professional fees, travel and related expenses, communications and information services, depreciation and amortization and other operating expenses. We refer to all of these expenses as non-compensation expenses.

### *Other Expenses*

Other Expenses include Special Charges in conjunction with the U.S. Private Equity restructuring and other ongoing strategic cost management initiatives, Acquisition and Transition Costs incurred in connection with the consummation of our acquisition of SFS and the formation of ETC and amortization of intangibles associated with acquisitions.

### *Provision for Income Taxes*

We account for income taxes in accordance with SFAS No. 109, *Accounting for Income Taxes*, which requires the recognition of tax benefits or expenses on temporary differences between the financial reporting and tax bases of our assets and liabilities.

## [Table of Contents](#)

### *Noncontrolling Interest*

We record significant noncontrolling interest relating to the ownership interests of our current and former Senior Managing Directors and their estate planning vehicles in Evercore LP, as well as the portions of PCB, EWM, EAM and ETC not owned by Evercore. As described in Note 1 to our unaudited condensed consolidated financial statements herein, Evercore Partners Inc. is the sole general partner of Evercore LP. Accordingly, although Evercore Partners Inc. has a minority economic interest in Evercore LP, it has a majority voting interest and controls the management of Evercore LP. As a result, Evercore Partners Inc. consolidates Evercore LP and records a noncontrolling interest for the economic interest in Evercore LP held by the limited partners.

### **Results of Operations**

Following is a discussion of our results of operations for the three and six months ended June 30, 2009 and 2008. For a more detailed discussion of the factors that affected the revenue and operating expenses of our Advisory and Investment Management business segments in these periods, see the discussion in “Business Segments” below.

Operating Expenses include: a) employee compensation and benefits expenses that are incurred directly in support of the segments and b) non-compensation expenses, which include expenses for premises and occupancy, professional fees, travel and entertainment, communications and information services, equipment and indirect support costs (including compensation and other operating expenses related thereto) for administrative services. Such administrative services include, but are not limited to, accounting, tax, legal, facilities management and senior management activities. Other Expenses include a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement in 2008, amortization of intangibles as well as Special Charges and Acquisition and Transition Costs.

The global financial markets have experienced nearly unprecedented disruption and volatility during 2008 and therefore difficult market conditions persisted throughout most of 2008 and have continued into 2009. Contraction in worldwide credit markets due in part to sub-prime lending issues, volatile currency and commodity markets, major write-downs within the financial sector and volatile oil prices have raised significant uncertainty about the state of the U.S. and global economies. These economic and market conditions have negatively affected our financial performance in both our Advisory and Investment Management businesses, particularly in the second half of 2008, and have adversely affected, and may continue to adversely affect, our financial performance in 2009.

We operate in a very competitive and rapidly changing environment. New risks and uncertainties emerge from time to time, and it is not possible for us to predict all risks and uncertainties, nor can we assess the impact of all potentially applicable factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

### **Three Months Ended June 30, 2009 versus June 30, 2008**

Net revenue was \$71.0 million for the three months ended June 30, 2009; an increase of \$10.9 million, or 18%, versus net revenue of \$60.1 million for the three months ended June 30, 2008. Net revenues reflect interest expense on our Senior Notes for the three months ended June 30, 2009.

Total Operating Expenses were \$66.9 million for the three months ended June 30, 2009 as compared to \$50.5 million for the three months ended June 30, 2008, a 32% increase. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$51.9 million for the three months ended June 30, 2009, an increase of \$13.4 million, or 35%, versus expense of \$38.5 million for the same period in 2008. The increase is primarily due to higher amounts of discretionary compensation accrued, reflecting higher revenues, as well as sign-on costs incurred in conjunction with the appointment of the President and Chief Executive Officer and compensation costs resulting from the consolidation of new businesses. Non-compensation expenses as a component of Operating Expenses were \$15.0 million for the three months ended June 30, 2009, an increase of \$3.0 million, or 25% over non-compensation operating expenses of \$12.0 million for the three months ended June 30, 2008. Non-compensation expenses increased compared to the three months ended June 30, 2008 primarily as a result of increased Professional Fees and other costs primarily driven by the acquisitions of a controlling interest in ETC, EAM and EWM.

Total Other Expenses of \$17.1 million for the three months ended June 30, 2009 relate to Special Charges of \$16.1 million in conjunction with the U.S. Private Equity restructuring and other ongoing strategic cost management initiatives, Acquisition and Transition Costs of \$0.4 million incurred in connection with the consummation of our acquisition of SFS and formation of ETC and amortization of intangibles of \$0.6 million. Total Other Expenses of \$1.8 million in the three months ended June 30, 2008 related to Special Charges of \$1.3 million in connection with employee severance and other costs related to the closing of the Los Angeles office and \$0.5 million of charges related to the amortization of intangibles.

The provision for income taxes for the three months ended June 30, 2009 was \$1.4 million, which reflected an effective tax rate of (10.6)%. This provision was impacted by a non-deductible charge for the cancellation of certain equity awards for employees who continue to be employed by us, as well as certain discrete adjustments and non-deductible equity-based share grants resulting from a decline in our share price from the date of grant to the date of vesting, which were permanent in nature. The provision for income taxes for the three months ended June 30, 2008 was \$2.5 million, which reflected an effective tax rate of 31.3%.

Noncontrolling interest was (\$8.3) million for the three months ended June 30, 2009 compared to \$3.4 million for the three months ended June 30, 2008, reflecting the allocation of a net loss for 2009.

### **Six Months Ended June 30, 2009 versus June 30, 2008**

Net revenue was \$120.8 million for the six months ended June 30, 2009; an increase of \$16.2 million, or 15%, versus net revenue of \$104.6 million for the six months ended June 30, 2008. Net revenues reflect interest expense on our Senior Notes for the six months ended June 30, 2009.

Total Operating Expenses were \$114.4 million for the six months ended June 30, 2009 as compared to \$88.5 million for the six months ended June 30, 2008, an 29% increase. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$87.7 million for the six months ended June 30, 2009, an increase of \$23.4 million, or 36%, versus expense of \$64.3

## [Table of Contents](#)

million for the same period in 2008. The increase is primarily due to the accrual of higher amounts of discretionary compensation, reflecting higher revenues, as well as sign-on costs incurred in conjunction with the appointment of the President and Chief Executive Officer and compensation costs resulting from the consolidation of new businesses. Non-compensation expenses as a component of Operating Expenses were \$26.7 million for the six months ended June 30, 2009, an increase of \$2.5 million, or 10% over non-compensation operating expenses of \$24.2 million for the six months ended June 30, 2008. Non-compensation operating expenses increased compared to the six months ended June 30, 2008 primarily as a result of increased Professional Fees and other costs primarily driven by the acquisition of a controlling interest in ETC, EAM and EWM.

Total Other Expenses of \$17.9 million for the six months ended June 30, 2009 relate to Special Charges of \$16.1 million in conjunction with the U.S. Private Equity restructuring and other ongoing strategic cost management initiatives, Acquisition and Transition Costs of \$0.7 million incurred in connection with the consummation of our acquisition of SFS and the formation of ETC and amortization of intangibles of \$1.0 million. Total Other Expenses of \$10.8 million in the six months ended June 30, 2008 related to Special Charges of \$2.4 million in connection with the write-off of certain capitalized costs associated with Evercore Capital Partners III L.P. ("ECP III") and employee severance and other costs related to the closing of the Los Angeles office, \$7.5 million of deferred consideration pursuant to the Braveheart Sale and Purchase Agreement and amortization of intangibles associated with the acquisitions of Protego and Braveheart of \$1.0 million.

The provision for income taxes for the six months ended June 30, 2009 was \$2.4 million, which reflected an effective tax rate of (21.2)%. This provision was impacted by a non-deductible charge for the cancellation of certain equity awards for employees who continue to be employed by us, as well as certain discrete adjustments and non-deductible equity-based share grants resulting from a decline in our share price from the date of grant to the date of vesting, which were permanent in nature. The provision for income taxes for the six months ended June 30, 2008 was \$2.2 million, which reflected an effective tax rate of 41.2%.

Noncontrolling interest was (\$8.1) million for the six months ended June 30, 2009 compared to \$2.0 million for the six months ended June 30, 2008, reflecting the allocation of a net loss for 2009.

### Business Segments

The following data presents revenue, expenses and contributions by business segment. Each segment's Operating Expenses include: (1) compensation and benefits expense incurred directly in support of the businesses of the segment, (2) non-compensation expenses, which include directly incurred expenses for premises and occupancy, professional fees, travel and entertainment, communications and information services and equipment and (3) an allocation of indirect support costs (including compensation and other operating expenses related thereto) for administrative services. These administrative services include certain finance, tax, legal, compliance, facilities management and senior management activities. Such support costs are allocated to the relevant segments based on various statistics, principally headcount and square footage. Other Expenses include a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement in 2008, amortization of intangibles as well as Special Charges and Acquisition and Transition Costs.

### *Advisory Results of Operations*

#### **Three Months Ended June 30, 2009 versus June 30, 2008**

Net Advisory Revenues were \$69.3 million for the three months ended June 30, 2009 compared to \$58.5 million for the three months ended June 30, 2008, which represents an increase of 19%, despite the dollar value of North American and Global M&A completed transactions decreasing 71% and 60%, respectively, as a result of the ongoing difficult market conditions. The increase in revenues over the three months ended June 30, 2008 reflects our growing contribution from U.S. restructuring assignments and our participation in larger U.S. M&A fees relative to those recognized in the prior year.

Operating Expenses were \$49.8 million for the three months ended June 30, 2009 as compared to \$43.6 million for the three months ended June 30, 2008, an increase of \$6.2 million, or 14%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$39.7 million for the three months ended June 30, 2009 as compared to \$34.1 million for the three months ended June 30, 2008. The increase is primarily due to higher amounts of discretionary compensation accrued, reflecting higher revenues, as well as sign-on costs of \$3.4 million incurred in conjunction with the appointment of the President and Chief Executive Officer. Advisory non-compensation expenses, as a component of Operating Expenses were \$10.1 million for the three months ended June 30, 2009 as compared to \$9.5 million for the three months ended June 30, 2008. Non-compensation operating expenses increased from the prior year due to higher professional and regulatory filing fees.

Other Expenses of \$4.4 million includes \$4.0 million of Special Charges and \$0.5 million of intangible asset amortization for the three months ended June 30, 2009. Other Expenses of \$0.5 million for the three months ended June 30, 2008 relate to amortization of intangibles.

#### **Six Months Ended June 30, 2009 versus June 30, 2008**

Net Advisory Revenues were \$119.0 million for the six months ended June 30, 2009 compared to \$99.9 million for the six months ended June 30, 2008, which represents an increase of 19%, despite the dollar value of North American and Global M&A completed transactions decreasing 37% and 49%, respectively, as a result of the ongoing difficult market conditions. The increase in revenues over the six months ended June 30, 2008 reflects our participation in several larger U.S. M&A fees and our growing contribution from U.S. restructuring assignments relative to those recognized in the prior year.

## Table of Contents

Operating Expenses were \$87.3 million for the six months ended June 30, 2009 as compared to \$74.7 million for the six months ended June 30, 2008, an increase of \$12.6 million, or 17%. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$68.9 million for the six months ended June 30, 2009 as compared to \$55.2 million for the six months ended June 30, 2008. The increase is primarily due to higher amounts of discretionary compensation accrued, reflecting higher revenues, as well as sign-on costs of \$3.4 incurred in conjunction with the appointment of the President and Chief Executive Officer. Advisory non-compensation expenses, as a component of Operating Expenses were \$18.4 million for the six months ended June 30, 2009 as compared to \$19.5 million for the six months ended June 30, 2008. Non-compensation operating expenses decreased from prior year driven by lower travel and professional fees, reflecting ongoing cost control initiatives.

Other Expenses of \$4.9 million include \$4.0 million of Special Charges and \$0.9 million of intangible asset amortization for the six months ended June 30, 2009. Other Expenses of \$8.4 million in the six months ended June 30, 2008 relate to a charge associated with deferred consideration pursuant to the Braveheart Sale and Purchase Agreement of \$7.5 million, as well as amortization of intangibles of \$1.0 million.

*Investment Management Results of Operations*

Our Wealth Management and Institutional businesses in the U.S. include the results of our new businesses EWM and ETC, which commenced operations in the fourth quarter of 2008 and second quarter of 2009, respectively, and EAM, which was consolidated as of April 1, 2009. EWM manages investment portfolios and implements financial planning strategies for high net worth individuals. ETC, in conjunction with the acquisition of SFS, will focus on providing specialized investment management, independent fiduciary and trustee services to employee benefit plans of large corporations. In addition, ETC provides personal trustee, executor and custody services for EWM. EAM is an institutional money manager specializing in small- and mid-cap value and core equities and earns revenues on a percentage of assets under management. Revenues from EWM are primarily earned on a percentage of assets under management while ETC primarily earns fees from negotiated trust services and fiduciary consulting arrangements. These businesses earned \$3.2 million and \$3.3 million of revenues and incurred \$6.2 million and \$8.7 million of expenses for the three and six months ended June 30, 2009, respectively. Our Investment Management results of operations continue to reflect the start-up nature of these businesses.

Our private equity funds earn management fees of 2% on committed capital during their investment period and 1% of invested capital thereafter. By January 2008, all of our private equity funds completed their investment period, causing a step-down in fees. Management fees for our Mexican private equity fund, EMCP II, were calculated on committed capital. For the six months ended June 30, 2009, management fee calculations for U.S. funds were based on \$435.0 million of invested capital. For the six months ended June 30, 2008, the management fee for U.S. funds was based on \$501.2 million of invested capital and \$62.0 million of committed capital. We expect management fees to decline over the remaining life of the funds as the funds continue to exit their portfolio company holdings.

In addition, the General Partner of private equity funds earns carried interest of 20% based on the Fund's performance, provided it exceeds preferred return hurdles to its limited partners. We own 8%-9% of the carried interest earned by the General Partner of ECP II and 100% of Carried Interest in EMCP II. For the six months ended June 30, 2009, our share of ECP II generated Realized and Unrealized Gains (Losses) Including Carried Interest was (\$4.8) million.

***Three Months Ended June 30, 2009 versus June 30, 2008***

Net Investment Management Revenues were \$1.7 million for the three months ended June 30, 2009, an increase of 4%, as compared to \$1.7 million for the three months ended June 30, 2008. Management Fees earned from the management of client portfolios and other investment advisory services increased 133% from prior year as a result of the acquisition of SFS, as well as continued growth in assets under management. Realized and Unrealized Gains (Losses) decreased from the prior year primarily resulting from a \$3.8 million loss related to ECP II. Other contributing factors for the negative revenues include our loss related to Pan.

Other Revenue, net, was (\$0.4) million for the three months ended June 30, 2009, a decrease of \$0.3 million versus the three months ended June 30, 2008, reflecting interest expense related to the Senior Notes in 2009.

Investment Management Operating Expenses were \$17.1 million for the three months ended June 30, 2009, an increase of \$10.2 million, versus expenses of \$6.9 million for the three months ended June 30, 2008. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$12.2 million for the three months ended June 30, 2009, a \$7.8 million, or 176% increase compared to the three months ended June 30, 2008. The increase is primarily due to sign-on costs of \$2.7 million incurred in conjunction with the appointment of the President and Chief Executive Officer and compensation costs resulting from new businesses of \$3.9 million, as well as a charge for the accelerated vesting of RSUs in connection with U.S. private equity restructuring of \$1.2 million. Non-compensation expenses as a component of Operating Expenses in 2009 increased by \$2.4 million, or 96%, compared to the three months ended June 30, 2008. Operating expenses increased primarily as a result of the acquisition of SFS, the consolidation of EAM and the addition of EWM.

Total Other Expenses of \$12.7 million for the three months ended June 30, 2009 relate to Special Charges of \$12.2 million, Acquisition and Transition Costs of \$0.4 million and amortization of intangibles of \$0.1 million. Total Other Expenses of \$1.3 million for the three months ended June 30, 2008 related to Special Charges in connection with employee severance and other costs related to the closing of the Los Angeles office.

***Six Months Ended June 30, 2009 versus June 30, 2008***

Net Investment Management Revenues were \$1.8 million for the six months ended June 30, 2009, a decrease of 62%, as compared to \$4.7 million for the six months ended June 30, 2008. Management Fees earned from the management of client portfolios

and other investment advisory services increased 59% from prior year as a result of the acquisition of SFS, as well as continued growth in assets under management. Realized and Unrealized Gains (Losses) decreased 275% from prior year primarily resulting from a \$3.8 million loss related to ECP II. Other contributing factors for the negative revenues include our losses related to HighView, Pan and EAM. EAM was consolidated effective April 1, 2009.

Other Revenue, net, was (\$0.9) million for the six months ended June 30, 2009, a decrease of \$1.2 million versus the six months ended June 30, 2008, reflecting interest expense related to the Senior Notes in 2009.

Investment Management Operating Expenses were \$27.1 million for the six months ended June 30, 2009, an increase of \$13.3 million, versus expenses of \$13.8 million for the six months ended June 30, 2008. Employee Compensation and Benefits Expense, as a component of Operating Expenses, was \$18.8 million for the six months ended June 30, 2009, a \$9.7 million, or 107% increase compared to the six months ended June 30, 2008. The increase is primarily due to sign-on costs of \$2.7 million incurred in conjunction with the appointment of the President and Chief Executive Officer and compensation costs resulting from new businesses of \$5.4 million, as well as a charge for the accelerated vesting of RSUs in connection with U.S. private equity restructuring of \$1.2 million. Non-compensation expenses as a component of Operating Expenses increased by \$3.6 million, or 77%, compared to the six months ended June 30, 2008. Non-compensation expenses increased primarily as a result of the acquisition of SFS, the consolidation of EAM and the addition of EWM.

Total Other Expenses of \$13.0 million for the six months ended June 30, 2009 relate to Special Charges of \$12.2 million, Acquisition and Transition Costs of \$0.7 million and amortization of intangibles of \$0.1 million. Total Other Expenses of \$2.4 million for the six months ended June 30, 2008 related to Special Charges in connection with the write-off of certain capitalized costs associated with ECP III and employee severance and other costs related to the closing of the Los Angeles office.

## Cash Flows

Our operating cash flows are primarily influenced by the timing and receipt of advisory and investment management fees, and the payment of operating expenses, including bonuses to our Senior Managing Directors and employees and interest expense on our Senior Notes. Our investing and financing cash flows are primarily influenced by activities to deploy capital to fund investments, raise capital through the issuance of stock or debt, payment of dividends and other periodic distributions to our stakeholders. Advisory fees are generally collected within 90 days of billing. Management fees from our private equity investment management activities are generally billed in advance but collected at the end of a half year period from billing. We traditionally pay a substantial portion of incentive compensation to personnel in the Advisory business and to executive officers during the first three months of each calendar year with respect to the prior year's results. We generally make dividend payments and other distributions on a quarterly basis. A summary of our operating, investing and financing cash flows is as follows:

	<b>For the Six Months Ended June 30,</b>	
	<b>2009</b>	<b>2008</b>

<b>End of Period</b>	<b>\$ 166,856</b>	<b>\$ 155,102</b>

**Six Months Ended June 30, 2009.** Cash and Cash Equivalents were \$166.9 million at June 30, 2009, a decrease of \$9.0 million versus Cash and Cash Equivalents of \$175.9 million at December 31, 2008. Operating activities during the six months ended June 30, 2009 resulted in a net outflow of \$7.5 million, primarily related to the payment of 2008 bonus awards and an increase in other assets. Cash of \$10.0 million was used in investing activities primarily for the acquisition of SFS. Financing activities during the period provided cash of \$7.3 million, primarily due to the issuance and sale of LP Units and from cash received for the noncontrolling interest of ETC, offset by distributions to Evercore LP Members, the payment of dividends and Treasury Stock purchases.

## [Table of Contents](#)

**Six Months Ended June 30, 2008.** Cash and Cash Equivalents were \$155.1 million at June 30, 2008, a decrease of \$38.4 million versus Cash and Cash Equivalents of \$193.5 million at December 31, 2007. Operating activities during the six months ended June 30, 2008 resulted in a net outflow of \$18.5 million, principally driven by cash earnings offset by the payment of bonus obligations. Cash of \$3.7 million was used in investing activities primarily to meet our commitment to contribute capital to the Private Equity Funds. Financing activities during the period used cash of \$16.6 million, primarily due to \$9.8 million of distributions to Evercore LP Limited partners, \$4.6 million in Treasury Stock Purchased and dividends paid of \$3.0 million.

### **Liquidity and Capital Resources**

#### *General*

Our current assets include Cash and Cash Equivalents, Marketable Securities and Accounts Receivable in relation to advisory and investment management revenues. Our current liabilities include accrued expenses and employee compensation. We traditionally have made payments for employee bonuses and year-end distributions to partners in the first quarter of the year with respect to the prior year's results. Cash distributions related to partnership tax allocations are made to the partners of Evercore LP in accordance with our corporate estimated payment calendar; these payments are made prior the end of each calendar quarter. In addition, dividends on Class A common shares are paid when and if declared by the Board of Directors, which is generally quarterly.

We regularly monitor our liquidity position, including cash, other significant working capital current assets and liabilities, long-term liabilities, lease commitments, principal investment commitments related to our Investment Management business, dividends on Class A Common shares, partnership distributions and other matters relating to liquidity and compliance with regulatory requirements. Our liquidity is highly dependent on our revenue stream from our operations, principally from our advisory business, which is a function of closing transactions and earning success fees, the timing and realization of which is irregular and dependent upon factors which are not subject to our control. Our revenue stream funds the payment of our expenses, including annual bonus payments, interest expense on our Senior Notes and income taxes. Payments made for income taxes may be reduced by deductions taken for the increase in tax basis of our investment in Evercore LP. These tax deductions, when realized, require payment under our long-term liability, Amounts Due Pursuant to Tax Receivable Agreements. We intend to fund these payments from cash and cash equivalents on hand, principally derived from cash flows from operations. These tax deductions, when realized, will result in cash otherwise required to satisfy tax obligations becoming available for other purposes. Our Management Committee meets regularly to monitor our liquidity and cash positions against our short and long-term obligations, as well as our capital commitments. The result of this review contributes to management's recommendation to the Board of Directors as to the level of quarterly dividend payments, if any.

As a financial services firm, our businesses are materially affected by conditions in the global financial markets and economic conditions throughout the world. The domestic and global markets and economic conditions have been disruptive and volatile throughout 2008 and into 2009. In particular, the cost and availability of funding have been and may continue to be adversely affected by illiquid credit markets and wider credit spreads. In addition, global equity prices have declined significantly. As a result of concern about the stability of markets and the strength of counterparties, many lenders and institutional investors have materially reduced funding to many borrowers. Revenue generated by our Advisory business is directly related to the number and value of the transactions in which we are involved. During periods of unfavorable market or economic conditions, the number and value of M&A transactions generally has decreased, thereby reducing the demand for our advisory services among financial services companies seeking such engagements. Our operating results are adversely affected by any such reduction in the number or value of mergers and acquisitions transactions. This reduction has been partially offset by an increase in restructuring advisory activity. In addition, as a result of the market and general economic downturn, the private equity funds that our Investment Management business manages have been impacted by reduced valuations and opportunities to exit and realize value from their investments and our Institutional Asset Management business has generated lower revenue because investment advisory fees we receive typically are in part based on the market value of underlying publicly traded securities. Our profitability may also be adversely affected by our fixed costs and the possibility that we would be unable to scale back other costs within a time frame sufficient to match any decreases in revenue relating to changes in market and economic conditions.

During the second quarter of 2008, our Board of Directors authorized the repurchase of up to \$25.0 million of Evercore Class A common stock and/or LP Units. Under this equity repurchase program, equity may be repurchased from time to time in open market transactions, in privately-negotiated transactions or otherwise. The timing and the actual amount of equity repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This program may be suspended or discontinued at any time and does not have a specified expiration date. In addition, periodically, we buy shares into treasury from our employees in order to fund the minimum tax requirements for share deliveries under our share equity plan. During the first six months of 2009, we repurchased 55,550 shares for \$0.6 million pursuant to the equity repurchase program and 178,561 shares for \$2.4 million related to share deliveries.

On August 21, 2008, we entered into a Purchase Agreement with Mizuho pursuant to which Mizuho purchased from us \$120.0 million principal amount of Senior Notes and the Warrants to purchase 5,454,545 shares of Evercore Class A common stock at \$22.00 per share expiring in 2020. The holder of the Senior Notes may require us to purchase, for cash, all or any portion of the holder's Senior Notes upon a change of control of the Company for a price equal to the Accreted Amount of such Senior Notes, plus accrued and unpaid interest. Senior Notes held by Mizuho will be redeemable at the Accreted Amount at our option at any time within 90 days following the date on which Mizuho notifies us that it is terminating the Strategic Alliance Agreement. Senior Notes held by any holder other than Mizuho will be redeemable at the Accreted Amount (plus accrued and unpaid interest) at our option at any time beginning on the third anniversary of closing. In the event of a default under the indenture, the trustee or holders of 33 1/3% of the Senior Notes may declare that the Accreted Amount is immediately due and payable.

Pursuant to the agreement, Mizuho may not transfer the Senior Notes or Warrants until either (a) after August 16, 2012 or (b) if the Strategic Alliance Agreement is terminated, the later of the third anniversary of the closing of the purchase of the Senior Notes and Warrants or one year following such termination. We have a right of first offer on any proposed transfer by Mizuho of the Warrants, Common Stock purchased in the open market or acquired by exercise of the Warrants and associated Common Stock issued as dividends.

The exercise price for the Warrants is payable, at the option of the holder of the Warrants, either in cash or by tender of Senior Notes at the Accreted Amount, at any point in time.

Pursuant to the agreement with Mizuho, Evercore is subject to certain nonfinancial covenants. As of June 30, 2009, we are in compliance with all of these covenants.

We have made certain capital commitments, with respect to our investment activities, which are included in the Contractual Obligations section below.

PCB maintains a line of credit with BBVA Bancomer to fund its trading activities on an intra-day and overnight basis. The intra-day facility is approximately \$7.2 million and secured with trading securities. No interest is charged on the intra-day facility. The overnight facility is charged the Inter-Bank Balance Interest Rate plus 10 basis points and is secured with trading securities. There have been no significant draw downs on PCB's line of credit since August 10, 2006. The line of credit is renewable annually.

During the second quarter, we invested an additional \$2.0 million in EAM, increasing our ownership to 51%. We also announced the formation of ETC in conjunction with the consummation of our acquisition of SFS for \$8.2 million resulting in a controlling interest of 86% in the entity.

Certain of our subsidiaries are regulated entities and are subject to capital requirements. For further information see Note 17 to our unaudited condensed consolidated financial statements.

In July 2009, we amended the terms of certain equity awards as follow:

- Dividend equivalents, in the form of unvested RSU awards, will be paid prospectively for all unvested RSU grants awarded in conjunction with annual bonuses. The dividend equivalents will have the same vesting and delivery terms as the underlying RSU award.
- Retirement eligibility terms have been established for all future equity awards granted in conjunction with annual awards. The revised retirement eligibility guidelines require:
  - At least five years of continuous service;
  - At least 55 years of age;
  - Combined years of service and age equal to 70; and
  - At least one year of advance notice of retirement and full compliance with post retirement employment restrictive covenants for one year post retirement
- In conjunction with the Second Amended and Restated Limited Partnership Agreement, the event-based vesting terms for unvested partnership units that were triggered if two of the three Evercore founders did not continue to be employed by or serve as a director of Evercore Partners Inc. or its affiliates or if the founders and certain associated entities ceased to beneficially own a specified percentage of their Evercore equity were deleted and replaced with more traditional time-based vesting provisions. The unvested partnership units will now vest ratably on December 31, 2011, 2012 and 2013 so long as the equity holder remains employed with Evercore Partners Inc., the Partnership or their affiliates on such dates.

### *Collateralized Financing Activity at PCB*

PCB enters into repurchase agreements with clients seeking overnight money market returns whereby PCB transfers to the clients Mexican government securities in exchange for cash and concurrently agrees to repurchase the securities at a future date for an amount equal to the cash exchanged plus a stipulated premium or interest factor. PCB deploys the cash received from, and acquires the securities deliverable to, clients under these repurchase arrangements by purchasing securities in the open market or by entering into reverse repurchase agreements with unrelated third parties. We account for these repurchase and reverse repurchase agreements as collateralized financing transactions. We record a liability on our Unaudited Condensed Consolidated Statements of Financial Condition in relation to repurchase transactions executed with clients as Securities Sold Under Agreements to Repurchase. We record as assets on our Unaudited Condensed Consolidated Statements of Financial Condition, Financial Instruments Owned and Pledged as Collateral at Fair Value (where we have acquired the securities deliverable to clients under these repurchase arrangements by purchasing securities in the open market) and Securities Purchased Under Agreements to Resell (where we have acquired the securities deliverable to clients under these repurchase agreements by entering into reverse repurchase agreements with unrelated third parties). These Mexican government securities included in Financial Instruments Owned and Pledged as Collateral at Fair Value on the Unaudited Condensed Consolidated Statements of Financial Condition have an estimated average time to maturity of approximately 3.0 years and are pledged as collateral against repurchase agreements which are collateralized financing agreements. Generally, collateral is posted equal to the contract value at inception and is subject to market changes. These repurchase agreements are primarily with institutional customer accounts managed by PCB, are generally in overnight maturities and permit the counterparty to pledge the securities. Increases and decreases in asset and liability levels related to these transactions are a function of growth in PCB's assets under management as well as clients' investment allocations requiring positioning in repurchase transactions. In August 2009, PCB will start offering equity products (stocks listed in the Mexican Stock Exchange) for institutional and high net-worth investors.

PCB has procedures in place to monitor the daily risk limits for positions taken, as well as the credit risk based on the collateral pledged under these agreements against their contract value from inception to maturity date. The daily risk measure is Value at Risk, which is a statistical measure, at a 98% confidence level, of the potential losses from adverse market movements in an ordinary market environment based on a historical simulation using the prior year's historical data. PCB's Risk Management Committee meets monthly to analyze the overall market risk exposure based on positions taken, as well as the credit risk, based on the collateral pledged under these agreements against the contract value from inception to maturity date.

As of June 30, 2009 and December 31, 2008, a summary of PCB's assets, liabilities and risk measures related to its collateralized financing activities is as follows:

	<u>June 30, 2009</u>		<u>December 31, 2008</u>

During the first quarter, we agreed to lease 5,632 square feet of office space at One Post Office Square, Boston, Massachusetts, for the expansion of EAM, expiring in August 2010 with annual base rental payments of approximately \$200. We also agreed to lease 3,916 square feet of office space at 1099 New York Avenue, N.W., Washington D.C., expiring in February 2014 with annual base rental payments of approximately \$200 and 12,833 square feet of office space at 601 S. Figueroa Street, Los Angeles, California, expiring in April 2014 with annual base rental payments of approximately \$350 in connection with the acquisition of SFS.

As of June 30, 2009, we are unable to make reasonably reliable estimates of the period of cash settlement with the respective taxing authority, hence, per FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes – an Interpretation of FASB Statement No. 109*, unrecognized tax benefits have been excluded from the above commitments and contractual obligations.

We had total commitments (not reflected on our Condensed Consolidated Statements of Financial Condition) relating to future principal investments of \$16.4 million and \$11.3 million as of June 30, 2009 and December 31, 2008, respectively. We expect to fund these commitments with cash flows from operations. We may be required to fund these commitments at any time through December 2017, depending on the timing and level of investments by our private equity funds.

During the first quarter of 2009 we committed an additional \$1.3 million to CSIP that is callable on demand by CSIP's Board of Directors.

During the second quarter of 2009, we invested an additional \$2.0 million in EAM, increasing our ownership interest to 51%. In addition, we have a remaining commitment of \$4.3 million which would be paid upon request by EAM's Board of Managers to fund operational needs. If the full amount were called, our ownership percentage would increase to 63.4%.

Due to the significant dislocations experienced across the alternative investment markets, we have decided to delay capital raising for Evercore Capital Partners and focus on the management and realization of the existing portfolio. HighView has also decided against proceeding with its business. None of the capital HighView raised was invested, and HighView has agreed to release us from our capital commitment of \$150.0 million.

See Note 4 for our commitment related to earn-out consideration for ETC.

### **Off-Balance Sheet Arrangements**

We do not invest in any off-balance sheet vehicles that provide liquidity, capital resources, market or credit risk support, or engage in any leasing activities that expose us to any liability that is not reflected in our unaudited condensed consolidated financial statements.

### **Market Risk and Credit Risk**

We, in general, are not a capital-intensive organization and as such, is not subject to significant market or credit risks. Nevertheless, we have established procedures to assess both the market and credit risk, as well as specific investment risk, exchange rate risk and credit risk related to receivables.

#### *Market and Investment Risk*

##### *Private Equity Funds*

Through our principal investments in our private equity funds and our ability to earn carried interest from these funds, we face exposure to changes in the estimated fair value of the companies in which these funds invest. Our professionals devote considerable time and resources to work closely with the portfolio company's management to assist in designing a business strategy, allocating capital and other resources and evaluating expansion or acquisition opportunities. On a quarterly basis, we perform a comprehensive analysis and valuation of all of the portfolio companies. Our analysis includes reviewing the current market conditions and valuations of each portfolio company.

We estimate that a hypothetical 10% adverse change in the value of the private equity funds would have resulted in a decrease in pre-tax income of approximately \$1.8 million for the three months ended June 30, 2009.

##### *Institutional Asset Management*

We maintained an equity interest in EAM of 51% at June 30, 2009 and also invests in funds managed by EAM. The funds managed by EAM principally hold readily-marketable investment securities. EAM is an institutional investment management firm

## [Table of Contents](#)

that manages deep value investments in small- and mid-capitalization companies. As of June 30, 2009, the fair value of our investments with EAM products, based on closing prices, was \$5.5 million.

We estimate that a hypothetical 10% adverse change in the market value of the investments would have resulted in a decrease in pre-tax income of approximately \$0.5 million for the three months ended June 30, 2009.

### PCB

See “-Liquidity and Capital Resources” above for a discussion of collateralized financing transactions at PCB.

### *Exchange Rate Risk*

We have foreign operations in Mexico and the United Kingdom; their respective functional currencies are the Mexican peso and British pound sterling. We have not entered into any transactions to hedge our exposure to these foreign exchange fluctuations through the use of derivative instruments or otherwise. An appreciation or depreciation of any of these currencies relative to the U.S. dollar would result in an adverse or beneficial impact to our financial results. A significant portion of our Latin American revenues have been, and will continue to be, derived from contracts denominated in Mexican pesos and Evercore Europe’s revenue and expenses are denominated primarily in British pounds sterling and euro. Historically, the value of these foreign currencies has fluctuated relative to the U.S. dollar. For the six months ended June 30, 2009, the net impact of the fluctuation of foreign currencies recorded in Other Comprehensive Income within the Unaudited Condensed Consolidated Statement of Equity was \$4.0 million. It is currently not our intention to hedge our foreign currency exposure and we will reevaluate this policy from time to time.

### *Credit Risks*

Accounts Receivable consists primarily of advisory fees and expense reimbursements billed to our clients. Receivables are reported net of any allowance for doubtful accounts. We maintain an allowance for bad debts to provide coverage for probable losses from our customer receivables and derive the estimate through specific identification for the allowance for doubtful accounts and an assessment of the client’s creditworthiness. As of June 30, 2009 and December 31, 2008, total receivables amounted to \$18.7 million and \$22.8 million, respectively, net of an allowance. The Advisory and Investment Management receivables collection periods generally are within 90 days of invoice. The collection period for restructuring transactions and private equity fee receivables may exceed 90 days. We recorded minimal bad debt expense for each of the six months ended June 30, 2009 and 2008.

With respect to our Marketable Securities portfolio, which is comprised of highly rated corporate bonds and equity securities, we manage our credit risk exposure by limiting concentration risk and maintaining minimum credit quality. As of June 30, 2009, we had Marketable Securities of \$104.2 million, of which 95% were corporate bonds primarily with Moody’s ratings ranging from Aaa to A3 and 5% were equity securities.

### **Critical Accounting Policies and Estimates**

The unaudited condensed consolidated financial statements included in this report are prepared in conformity with U.S. GAAP, which requires management to make estimates and assumptions regarding future events that affect the amounts reported in our unaudited condensed consolidated financial statements and their notes, including reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. We base these estimates on historical experience and various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates. For a complete discussion of our critical accounting policies and estimates, refer to our Annual Report on Form 10-K for the year ended December 31, 2008.

### **Recently Issued Accounting Standards**

*FSP FAS 141(R)-1* - In April 2009, the FASB issued FSP FAS 141(R)-1. FSP FAS 141(R)-1 amends and clarifies SFAS 141(R), to address application issues raised by preparers, auditors and members of the legal profession on initial recognition and measurement, subsequent measurement and accounting and disclosure of assets and liabilities arising from contingencies in a business combination. FSP FAS 141(R)-1 is effective for assets or liabilities arising from contingencies in business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The adoption of this FSP did not have a material effect on our financial condition, results of operations or cash flows.

*FSP FAS 107-1 and APB 28-1* – In March 2009, the FASB issued FSP FAS 107-1 and APB 28-1. FSP FAS 107-1 and APB 28-1 amends FASB Statement No. 107, *Disclosures about Fair Value of Financial Instruments*, to require disclosures about the fair value

## [Table of Contents](#)

of financial instruments in interim financial statements, as well as in annual financial statements. This FSP also would amend APB Opinion No. 28, *Interim Financial Reporting*, to require those disclosures in all interim financial statements. FSP FAS 107-1 and APB 28-1 is effective for interim periods ending after June 15, 2009. The adoption of this FSP did not have a material effect on our financial condition, results of operations or cash flows.

*FSP FAS 115-2 and FAS 124-2* – In April 2009, the FASB issued FSP FAS 115-2 and FAS 124-2, “*Recognition and Presentation of Other-Than-Temporary Impairments*.” This FSP amends the other-than-temporary impairment guidance for debt securities to make the guidance more operational and to improve the presentation and disclosure of other-than-temporary impairments on debt and equity securities in the financial statements. The FSP is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of this FSP did not have a material effect on our financial condition, results of operations or cash flows.

*FSP FAS 157-4* – In April 2009, the FASB issued FSP FAS 157-4. FSP FAS 157-4 provides additional guidance for estimating fair value in accordance with SFAS 157, when the volume and level of activity for the asset or liability have significantly decreased. This FSP also includes guidance on identifying circumstances that indicate a transaction is not orderly. This FSP is effective for interim and annual reporting periods ending after June 15, 2009, and shall be applied prospectively. The adoption of this FSP did not have a material effect on our financial condition, results of operations or cash flows.

*SFAS 165* – In May 2009, the FASB issued SFAS 165. SFAS 165 establishes principles and requirements for subsequent events. In particular, this Statement sets forth the period after the balance sheet date during which management of a reporting entity shall evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity shall recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity shall make about events or transactions that occurred after the balance sheet date. SFAS 165 is effective for interim or annual financial periods ending after June 15, 2009, and shall be applied prospectively. The adoption of this FSP did not have a material effect on our financial condition, results of operations or cash flows. See Note 15 for subsequent events.

*SFAS 166* – In June 2009, the FASB issued SFAS 166. SFAS 166 amends SFAS No. 140 to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor’s continuing involvement in transferred financial assets. This Statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. The recognition and measurement provisions of this Statement shall be applied to transfers that occur on or after the effective date. We are currently assessing the impact of the adoption of SFAS 166 on our financial condition, results of operations and cash flows.

*SFAS 167* – In June 2009, the FASB issued SFAS 167. SFAS 167 amends certain requirements of FASB Interpretation No. 46 (revised December 2003), *Consolidation of Variable Interest Entities*, to improve financial reporting by enterprises involved with variable interest entities and to provide more relevant and reliable information to users of financial statements. This Statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. Earlier application is prohibited. We are currently assessing the impact of the adoption of SFAS 167 on our financial condition, results of operations and cash flows.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

#### **Risk Management**

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations – Market Risk and Credit Risk.” We do not believe we face any material interest rate risk, foreign currency exchange risk, equity price risk or other market risk except as disclosed in Item 2 “– Market Risk and Credit Risk” above.

### **Item 4. Controls and Procedures**

#### **Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures**

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act as of the end of the period covered by this report. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) are effective, in all material respects, to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act is

recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

**Changes in Internal Controls over Financial Reporting**

During the three months ended June 30, 2009, we have not made any changes that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act).

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

In the normal course of business, from time to time the Company and its affiliates may be involved in judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses, and, in the past, the Company and its affiliates have been named as a defendant in civil litigation matters involving present or former clients or competitors. In addition, Mexican, United Kingdom and United States government agencies and self-regulatory organizations, as well as state securities commissions in the United States, conduct periodic examinations and initiate administrative proceedings regarding the Company's business, including, among other matters, accounting and operational matters, that can result in censure, fine, the issuance of cease-and-desist orders or the suspension or expulsion of a broker-dealer or its directors, officers or employees.

The Company contests liability and/or the amount of damages as appropriate. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases where claimants seek substantial or indeterminate damages or where investigations and proceedings are in the early stages, the Company cannot predict with certainty the loss or range of loss, if any, related to such matters, how or if such matters will be resolved, when they will ultimately be resolved, or what the eventual settlement, fine, penalty or other relief, if any, might be. Subject to the foregoing, the Company believes, based on current knowledge and after consultation with counsel, that the outcome of any pending matters will not have a material adverse effect on the consolidated financial condition of the Company, although the outcome of such matters could be material to the Company's operating results and cash flows for a particular future period, depending on, among other things, the level of the Company's revenues or income for such period. Legal reserves are established in accordance with SFAS No. 5, *Accounting for Contingencies*. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change.

### Item 1A. Risk Factors

The following additional risk factors are in addition to the risk factors previously disclosed in our Annual Report on Form 10-K for the year ended December 31, 2008.

***If the Company fails to comply with agreements it has entered into with the OCC, the Company could be adversely affected.***

In connection with the organization of ETC, the OCC required the Company and Evercore LP to enter into a Capital and Liquidity Support Agreement, a Capital and Liquidity Maintenance Agreement and other related agreements (collectively, the "OCC Agreements"). The OCC Agreements require the Company's and Evercore LP's continuing obligation to provide ETC necessary capital and liquidity support in order to ensure that ETC continues to operate safely and soundly and in accordance with applicable laws and regulations. In particular, the OCC Agreements require that the Company and Evercore LP (1) maintain at least \$5 million in Tier 1 capital in ETC or such other amount as the OCC may require, (2) maintain liquid assets in ETC in an amount at least equal to the greater of \$3.5 million or ninety (90) days coverage of ETC's operating expenses, and (3) provide at least \$10 million of certain collateral held in a segregated account at a third party depository institution.

If we fail to comply with any of the OCC Agreements, we could become subject to civil money penalties, regulatory enforcement actions, payment of damages and, if the OCC deems it likely that we are unable to fulfill our obligations or breach the OCC Agreements, a forced disposition of ETC. Any of these events or the disclosure that these events are probable or under consideration may cause reputational harm and erosion of client trust which would adversely affect our business and operations.

***ETC's reliance on a non-affiliated third party service provider subjects ETC to operational risks.***

ETC has entered into a master services agreement with a third party service provider for custodial services and trust and investment administration processing and reporting services. ETC's board of directors and senior management and officers oversee and manage this relationship; however, poor oversight and control on the part of ETC or inferior performance or service on the part of the service provider could result in loss of customers, violation of applicable rules and regulations, including, but not limited to privacy and anti-money laundering laws and otherwise adversely affect ETC's business and operations, and based on the support obligations discussed above, the Company's business and operations.

Under this share repurchase program, shares may be repurchased from time to time in open market transactions, in privately negotiated transactions or otherwise. The timing and the actual number of shares repurchased will depend on a variety of factors, including legal requirements, price and economic and market conditions. This program may be suspended or discontinued at any time and does not have a specified expiration date.

#### Item 3. Defaults Upon Senior Securities

None.

#### Item 4. Submission of Matters to a Vote of Security Holders

On June 3, 2009, at the Company's annual meeting of stockholders, seven nominees were elected for a one-year term. The votes were as follows:

	For	Withheld
Roger C. Altman	10,839,595	271,957
